

**Hands-on Exercise No. 1**  
**DigiSkills 3.0 Batch-03**  
**UI/UX & Web flow**

**Total Marks: 10**  
**Due Date: 07/05/2026**

**Instructions:**

Please read the following instructions carefully before submitting this Hands-on Exercise:

- Use MS Word to prepare exercise solutions.
- You may consult tutorials and videos if the concept is not clear.
- Your submitted exercise will not be considered/counted if:
  - It is submitted after due date.
  - It is not in the required format (.doc or .docx)
  - It does not open, or file is corrupt.
  - It is copied (partial or full) from any source (websites, forums, students, etc.)

**Learning Outcome:**

After completing this exercise, you shall be able to:

- How to analyze competitor websites.
- How checkout and sign in flows work.
- How to identify good, cluttered, or confusing designs.
- How to compare website features professionally.
- How research helps create better UX designs.

## **Problem Statement**

Suppose you are working as a UX Designer for a Gaming eCommerce Store in Pakistan. A client wants to improve the user experience of their online store because **gamers struggle to find authentic and newly released gaming equipment easily and confidently**. Before starting the design process, your task is to study competitor platforms and understand their strengths, common UX patterns, and possible improvement opportunities.

## **Task Requirements**

**Your task is to conduct a mini competitive audit and compare similar platforms and share** Which features feel good and which one is cluttered or overwhelming?

Choose any **2 similar competitor websites** related to gaming or eCommerce. Conduct a competitive audit of the following areas:

1. Sign In Flow
2. Navigation Bars
3. Add to Cart Buttons
4. Checkout Flow

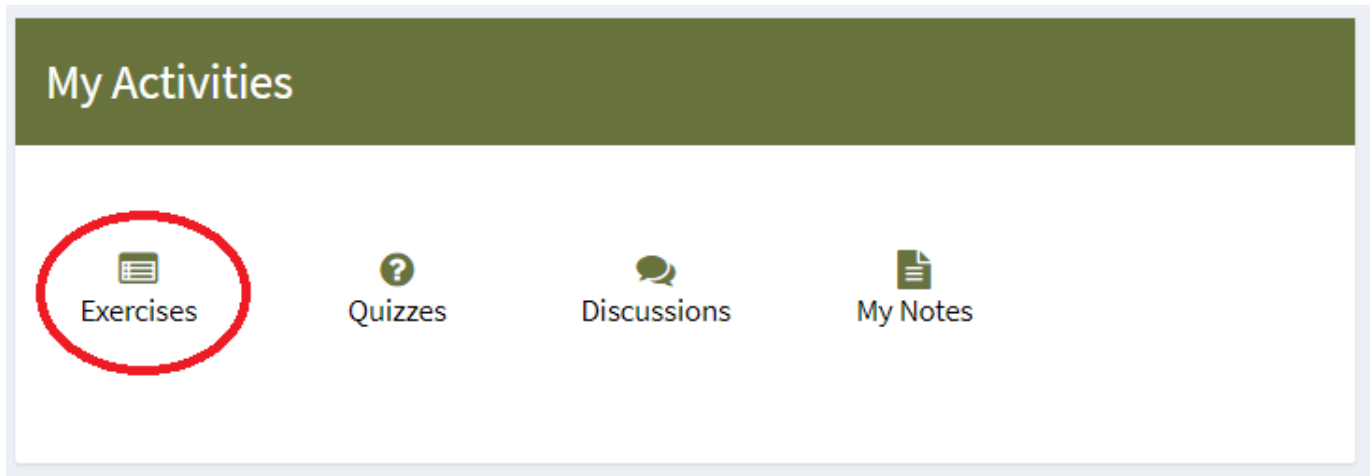

Take screenshots of each mentioned screen like checkout flow of both compared websites and add your reviews about them, which features feel good, cluttered or overwhelming?

BEST OF LUCK 😊

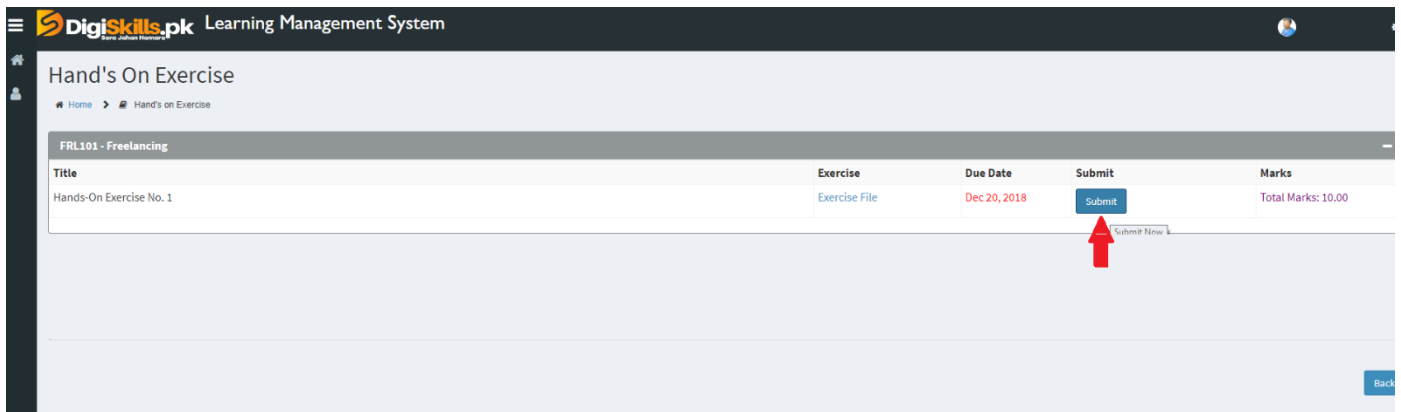

## How to submit solution file on LMS?

Please perform the following steps for submitting your solution using LMS:

- 1) Login to the LMS
- 2) Click on the **Exercises** button within the **My Activities** section

- 3) Click on the submit button to upload your Solution.

- 4) Keep in mind to upload your Solution in .doc or .docx format
